Charging Expo is held in the 100,000 sq. ft. Sails Pavilion of the San Diego Convention Center and provides speaking and exhibit opportunities for suppliers of EV charging stations and infrastructure, batteries & storage, utility fleet, as well as ZEV & AFV, to showcase advanced technologies and strategies for compliance and implementation of SB-350 and for the transition of the transportation sector nationally. SB-350 directs California regulators (CPUC, ARB, CEC, AQMD) to electrify buses, trucks, fleet and off-road equipment, with $1 billion funded by investor owned utilities SDG&E, SCE and PG&E.

What is Charge Expo?

Charge Expo is a follow-up to Clean Car & TE-Expo held 2015 to 2019 to present latest technologies in EV, battery, utility fleet, charging, infrastructure, and transportation electrification.
