**ADAMS CAMPBELL CO.****1321**

[www.adamscampbell.com](http://www.adamscampbell.com)  
626-330-3425

ADAMS CAMPBELL CO

A CENTURY OF PRECISION METAL FABRICATION

The Adams Campbell Company Established in 1909 is well known for High Quality Manufacturing, On Time Delivery & Competitive Pricing. The Company provides Stampings to complex Fabricated Metal Parts and is equipped with the latest Technology. Our Stock, Hold & Release Program ensures on-time & early Delivery to Minimize Customer's Inventory Requirements. Over 100 years of Metal Fabrication!! ACC is the Best!

**AEBI SCHMIDT HOLDINGS  
NORTH AMERICA****1616**

[aebi-na.com](http://aebi-na.com)  
888-367-2741

Aebi has been developing high-end vehicles and attachments since 1883. Born from navigating the rugged landscape of the Alps, our wide range of equipment is manufactured with Swiss precision and built to adapt to the requirements of any sloping terrain. Our machines enable you to work comfortably, safely and efficiently while being gentle on the ground and environmentally conscious. Whether it's implement carriers for steep slopes, motor mowers or multi-purpose transporters, Aebi always has the right equipment to get your job done.

**AEM****1631**

[aemcomponents.com](http://aemcomponents.com)  
858-750-6100

AEM Components (USA), Inc. is a leading manufacturer of surface mount electronic components, and one of the few companies to have its own unique technology platform. AEM's products are used globally for circuit protection and EMI signal filtering by many fortune 500 companies and other renowned customers in the telecommunication, power tools, computer, consumer electronics, and automotive industries. With over 30 years of experience, AEM possesses patented process technologies as well as proprietary nanoparticle composite material technologies, equipment technologies and computer simulation capabilities. AEM houses research and development centers, manufacturing facilities and sales offices in United States and throughout Asia.

**AI CARE, LLC****1204**

[aleynausa.com](http://aleynausa.com)  
(310) 592 7919

AI CARE LLC is a boutique organization focusing on providing healthcare solutions to healthcare facilities and individuals. We are active in 40 states in USA as well as in UK and South Africa. Our main focus is to provide everyone a cost effective and a quality healthcare solutions.

**ARNOLD FASTENING****1533**

[arnold-fastening.com](http://arnold-fastening.com)  
248-997-2000

The ARNOLD GROUP – BlueFastening Systems

With a foundation of many years of expertise in the production of intelligent fastening systems and very complex extruded parts, over a number of years the ARNOLD GROUP has developed into a comprehensive supplier and development partner for complex fastening systems. With our new positioning of "BlueFastening Systems" this development process will now continue under a united and harmonised structure. Engineering, fastenings, and functional parts, together with feeder processing systems, all from a single source – efficient, sustained and international.

**AUTOLIV INC**

**1413**

[autoliv.com](http://autoliv.com)  
+46-8587-206-00

Autoliv develops, manufactures and markets airbags, seatbelts and steering wheels. Statistically, more than three airbags or seatbelts from Autoliv have been delivered to every vehicle produced globally during the past ten years

**AZUGA**

**1416**

[azuga.com](http://azuga.com)  
888-777-9718

Azuga is a leading connected vehicle platform, helping our customers turn data about vehicles and their use into intelligence that improves operations and safety while reducing costs and risk. Azuga provides reliable end-to-end solutions for commercial fleets, government agencies, insurance companies and automotive industry suppliers, encompassing hardware, the Azuga One platform, SaaS applications, support and data analytics.

**B**

**BALLARD POWER SYSTEMS**

**1515**

[www.ballard.com](http://www.ballard.com)  
604-454-0900

Ballard represent decades of innovation and engineering leadership in clean energy for heavy duty vehicles. We work with commercial vehicle industry leaders to bring zero-emission fuel cell powertrain on the road. FCveloCity® heavy duty power modules lead the industry in performance, durability, cost, and overall road experience with over 15 years of road experience and 11M kms of commercial operation. Fuel cell electric buses and trucks powered by Ballard offer zero emission with no compromise in operational capabilities. Collaborating with our partners, we continue to improve our solutions to deliver affordable fuel cell vehicles with engineering excellence. Ballard is present in Europe, North America and China with dedicated service teams to support commercial deployment of fuel cell electric buses and trucks. "

**BENDER**

**1720**

[benderinc.com](http://benderinc.com)  
610-383-9200

Bender is your electrical vehicle EV and Electrical Vehicle Supply Equipment EVSE expert in electrical safety relays and solutions.

**BLACK & VEATCH**

**1316**

[bv.com](http://bv.com)  
913-458-2000

**BLACK & VEATCH**

A leader in the Zero-Emission Vehicle (ZEV) market, Black & Veatch has completed design, engineering, permitting, and construction for hundreds of charging sites. Black & Veatch's ZEV infrastructure approach enables concurrent, multisite production for greater speed to market. Clients find confidence in the company's 100 years of engineering expertise, working relationships with many of the nation's utility companies, and thorough understanding of electric utility compliance requirements. This trust has led to innovative projects in high-powered charging and hydrogen fueling infrastructure for consumer vehicles, fleets, and public transportation.

**BTC POWER**

**1701**

[btcpower.com](http://btcpower.com)  
714-259-4888

BTCPower (Broadband TelCom Power, Inc.) is a US Company based in Santa Ana CA. and is a leader in the North American electric vehicle charging market. BTCPower has a large array of "Level 2" AC charging station products that range from home chargers, workplace, multi-dwelling and commercial Level 2 charging stations. In addition, BTCPower has an extensive line of DC Fast Chargers to service metro, commercial, workplace and highway location to re-charge both electric passenger vehicles and heavy duty electric vehicles such as electric school buses, shuttle buses and transit buses.

**BYD**

**1534**

[byd.com](http://byd.com)  
800-BYD-AUTO

BYD is a high-tech company devoted to technological innovations for a better life. Founded in February 1995, BYD has grown from a start-up with only 20 employees into a global company with 240 thousand employees today. Throughout its 24 years of high-speed growth, BYD has established over 30 industrial parks across six continents and has played a significant role in industries related to electronics, automobiles, new energy and rail transit. From energy generation and storage to its applications, BYD is dedicated to providing zero-emission energy solutions. BYD is listed on the Hong Kong and Shenzhen Stock Exchanges, with revenue and market capitalization each exceeding RMB 100 billion.

C

**C2 GROUP**

**1633**

[c2group.us](http://c2group.us)  
619-880-9797

C2 Group is a full-service project delivery and Modern Program Management Company. We offer professional services, consultation, incorporation of program level overviews while assessing project level implementation impacts. Our vast experience supporting public and private agencies provide us with both insight and foresight on how to strategically advance our clients interest. We balance traditional approaches with progressive technological initiatives that often require phased adoption strategies to aid in modernization initiatives.

**CALB USA, INC.**

**1308**

[calbusainc.com](http://calbusainc.com)  
909-591-8881

CALB USA Inc. is a branch of operations located in Southern California and we specialize in the distribution of Lithium Ion Batteries. Utilizing constant advancement in technology being made by our development team in China, we can always offer the highest quality products for your electric needs. We offer a variety of battery models with different electric charges that can be used in all sorts applications. With the help of our valued customers and our company practices we strive to create a more sustainable world by utilizing the benefits of reusable energy.

**CALIFORNIA FUEL  
CELL PARTNERSHIP**

**1322**

916-371-2870  
[www.cafcp.org](http://www.cafcp.org)

Founded in 1999, the California Fuel Cell Partnership is an industry/government collaboration aimed at expanding the market for fuel cell electric vehicles (FCEVs) powered by hydrogen to help create a cleaner, more energy-diverse future with no-compromises zero emission vehicles. "

**CALIFORNIA HYDROGEN  
BUSINESS COUNCIL**

**1216**

[californiahydrogen.org](http://californiahydrogen.org)  
310-455-6095

The California Hydrogen Business Council (CHBC) is the leading advocate for the hydrogen and fuel cell industry in Sacramento. The CHBC is membership based trade association that represents a wide array of organizations in the industry, including: Auto Manufacturers, Bus and Heavy Duty Vehicle Manufacturers, Components, Fuel Cells, Electrolyzers, Tanks and Storage, Utility Companies, Government Agencies, Non-Profits, Education Institutions. The CHBC is lead by its Board of Directors, consisting of leaders from member organizations. The CHBC is divided into 6 groups overseen by the Board, two Committees (Advocacy, Communication and Business Expansion) and Sector Action Groups and a Working Group.

**CALSTART**

**1609**

[calstart.org](http://calstart.org)  
626-744-5600

A national nonprofit consortium with offices in New York, Michigan, Colorado and California, CALSTART partners with 200+ member company and agency innovators to build a prosperous, efficient and clean high-tech transportation industry. We knock out barriers to modernization and the adoption of clean vehicles. CALSTART is changing transportation for good.

**CARB**

**1421**

**CALIFORNIA AIR RESOURCES BOARD**

[arb.ca.gov](http://arb.ca.gov)  
800-242-4450

The California Air Resources Board (CARB) is charged with protecting the public from the harmful effects of air pollution and developing programs and actions to fight climate change. From requirements for clean cars and fuels to adopting innovative solutions to reduce greenhouse gas emissions, California has pioneered a range of effective approaches that have set the standard for effective air and climate programs for the nation, and the world.

**CAR-CONNECT NA, INC.**

**1522**

[car-connect.cc](http://car-connect.cc)  
856-533-2293

Measuring and diagnostic equipment for use in garages and technical development as well as assemblies and wiring harnesses for use in vehicles. Our development and production spectrum includes electronics, software, technical plastic and aluminum assemblies and wiring harnesses. This enables us to map most of the value chain of our end products in-house. Core competences of the complete product development in-house and a qualified and highly motivated team, which works solution-oriented in start-up atmosphere and most modern tools – your advantage for solutions and products at the highest level in short development times. We are happy to advise our customers already in the concept phase and then develop innovative system solutions according to your customer requirements, which we produce in our production facility – from the first concept through the prototype to the series.

**CEMENTEX PRODUCTS, INC.**

**1710**

[cementexusa.com](http://cementexusa.com)  
800-654-1292

Experience, adaptability, quality and vision are the foundation of the Cementex brand of double-insulated tools and safety related products. Our continued use of American tools, fabrics and labor paired with these fundamentals not only set us apart from the imitators but have also established us as the trusted safety tool specialists. Safe tools are the most important part of doing the job right – Cementex's complete offering of American made double-insulated 1000V safety tools and personal protective equipment help you meet the requirements of OSHA, NFPA 70E and CSA Z462 standards.

**CENTER FOR SUSTAINABILITY**

**1434**

[energycenter.org](http://energycenter.org)  
858-244-1177

SE is a mission-driven nonprofit organization providing clean energy program design and management and technical advisory services. Headquartered in San Diego, CSE works nationwide in the clean energy industry with support of offices in Los Angeles, Boston and Oakland, Calif. For over 20 years, CSE has been accelerating the transition to a sustainable world powered by clean energy.

**CLEAN CITIES**

**1432**

[scag.ca.gov](http://scag.ca.gov)  
213-236-1800

Founded in 1965, the Southern California Association of Governments (SCAG) is a Joint Powers Authority under California state law, established as an association of local governments and agencies that voluntarily convene as a forum to address regional issues. Under federal law, SCAG is designated as a Metropolitan Planning Organization (MPO) and under state law as a Regional Transportation Planning Agency and a Council of Governments.

**CLEANCAR**

**1307**

[cleancar.io](http://cleancar.io)  
+44-0845-600-6880

Collectively, the Directors of CleanCar have over 100 years of experience in the vehicle leasing and fleet industry. We have worked, and continue to work closely with businesses of all sizes – from individuals to multinational blue-chip giants. We're confident that unlocking accurate mileage capture releases big benefits for all clients. That's why we founded Fleet Innovations in 2010. Fittingly, our CleanCar system reflects many of the values of the company itself. We're innovative, always striving to be better, and looking for ways to reduce CO2 and save the world. Our success is based on listening and observing and looking for innovative opportunities. It's been a long and winding road to get to where we are today but it's been loads of fun and we have learned a lot along the way.

**CLIPPERCREEK, INC.**

**1208**

[clippercreek.com](http://clippercreek.com)  
530-887-1674

Founded in 2006, ClipperCreek is a worldwide leader in Electric Vehicle Supply Equipment (EVSE) manufacturing and distribution. ClipperCreek offers a wide range of products designed to be the safest, and most innovative, EV charging stations on the market. ClipperCreek's product offerings cover the full power range of the SAE-J1772 charging standard for Level 1 and Level 2 charging, and can be paired with many innovative solutions to provide additional functionality like access control, energy usage tracking, load management, or payment collection. This wide and robust product offering allows ClipperCreek to provide the most flexible solutions for available power and required functionality. ClipperCreek products are proudly manufactured in Auburn, CA USA.

**CRC INDUSTRIES**

**1821**

[www.crcindustries.com](http://www.crcindustries.com)  
800-556-5074

CRC Industries, Inc. is a global leader in the production of specialty chemicals for the do-it-yourselfer and maintenance professional, serving the automotive, industrial, electrical, marine, heavy truck, hardware and aviation markets. We are leveraging our leadership in the automotive and electrical maintenance and repair segments to develop a new product portfolio to address the challenges faced by alternative technology vehicles. Visit our booth to discover cleaning, degreasing, lubrication, and protection solutions for your electric and hybrid engine transport fleet and more. CRC trademarked brands include: CRC®, SmartWasher®, K&W®, Sta-Lube®, Marykate® and Weld-Aid®

**ENEVATE CORPORATION****1632**

[enevate.com](http://enevate.com)  
949-243-0399

Enevate Corporation develops and licenses advanced silicon Lithium-ion (Li-ion) battery technology that revolutionizes the electric vehicles (EV) market by breaking down the barriers to EV adoption. Headquartered in Irvine, California with over 80 patents issued and pending internationally, Enevate's pioneering work on silicon-dominant anodes and cells has resulted in its breakthrough HD-Energy® Technology, delivering significant performance improvement over conventional graphite-dominant Li-ion batteries. Enevate's HD-Energy Technology features extreme fast charging with uncompromised high energy density, excellent low-temperature operation for cold climates, and safety advantages. EV batteries using Enevate's technology are capable of 5-minute charging at up to 10X faster allowing use of an EV just like a gas vehicle to eliminate range anxiety and operation down to -40°C.

**EV CONNECT****1407**

[evconnect.com](http://evconnect.com)  
888-780-0062

We are the smartest EV charging company creating scalable, flexible, and comprehensive industry-specific solutions. We understand that no two industries or even organizations are alike, so it doesn't make sense to offer a cookie-cutter approach to EV technology. As such, we customize our high-quality systems to meet your organization's unique needs.

**EVI****1734****ELECTRIC VEHICLE INFRASTRUCTURE**

[EVicharge.com](http://EVicharge.com)  
909-982-6979

EVI Inc (Electrical Vehicle Infrastructure) is a full service contractor whom specializes in the EV infrastructure and charger industry, ranging from everyday passenger vehicles to the shipping and transit sector. EVI provides services such as charge post installations, utility infrastructure installation, and complete EV site construction. Our team takes great pride in the ability to meet predetermined budgets and exceed client schedules and expectations by self-performing complete scopes of work. EVI understands this everchanging and advancing sector and strives to make the necessary changes to continue our path to success.

**F****FLEETCARMA****1602**

[www.fleetcarma.com](http://www.fleetcarma.com)

**MOMENTIVE PERFORMANCE MATERIALS, INC.**

**1514**

[Momentive.com](http://Momentive.com)  
800-295-2392

Our global silicones business brings innovation to a wide range of industries, including automotive, electronics, personal care, consumer products, aerospace, and building and construction to name a few. We offer basic siloxane polymers; and an extensive portfolio of additives, including silanes, specialty fluids, and urethane additives. We also have an extensive offering of formulated products, including elastomers and coatings. And, of course, we also collaboratively formulate with customers to meet specific needs. Our global Quartz business manufactures, sells, and distributes high-purity fused quartz and ceramic materials. From semiconductors to lighting and consumer electronics, these specialized products set the standard for applications that require optical clarity, design flexibility, and durability in extreme environments. We partner with our customers to help increase their manufacturing productivity and solve complex design problems-which are just two of the reasons these materials are the most specified by customers around the world.

**QWIK CHARGE**

**1410**

[qwikcharge.com](http://qwikcharge.com)  
404-509-1416

Our goal is to make the EV driving experience a pleasure for all EV drivers. Range anxiety can be real, especially for newer EV drivers. We want to eliminate range anxiety by providing fast charging services where they're needed. We will be creating a green highway for EV drivers to travel wherever they want – starting in metro Atlanta and working our way southeast. Our services will allow for navigating the roads without the worries of finding a place to charge and being able to charge quickly enough to arrive to the next destination on time.

**SAN DIEGO APCD**

**1234**

[sdapcd.org](http://sdapcd.org)  
858-586-2600

The Air Pollution Control District is a government agency that regulates sources of air pollution within San Diego County. Our mission is to improve air quality to protect public health and the environment. The District evaluates and issues air quality permits to ensure proposed new or modified commercial and industrial equipment and operations comply with air pollution control laws. The District also maintains the ambient air monitoring network, ensures regulated sources operate in compliance with all permit conditions, prepares long term regional plans, develops air quality rules, and administers state and local funding programs to reduce emissions from mobile sources.

**SDGE**

**1401**

[sdge.com](http://sdge.com)

SDG&E is a regulated public utility that provides energy service to 3.6 million people through 1.4 million electric meters and 873,000 natural gas meters in San Diego and southern Orange counties. Our service area spans 4,100 square miles.
